To whom it may concern,

DOCKETED BY	<i>CR</i>
-------------	-----------

I am writing this letter with the hopes of inputting my feelings about the power lines that are in proposal for the North Valley 230k V Facility Siting Project.

I am a resident residing approximately 31st ave and Pinnacle Vista. The proposed site for the power lines , your first choice (GOLD) I think should be reconsidered due to the space issue that this area already faces and **the only entrance into our area for 4 miles north is the West Side Frontage Road.** It appears looking at your plans and plan sites that the (GREEN or BLACK) routes would best serve this area and in doing so not effect surrounding homes and views and **safety** etc...

I am asking that APS would **PLEASE** consider **The GREEN Alternate Route**, This looks to be better direction for all home owners involved. We have talked to many in this area that feel the same way , although as you are aware only a select few will take the time to sit down and write a letter of concern, but believe me I speak for many in our neighborhood.

You have asked for homeowner input and I only hope you will consider this option with great thought.

Sincerely,

Jon and Karen Shaul
